Creative Minnesota 2019 Study Reveals Growth of Arts and Culture Sector in North Central Minnesota

SAINT PAUL, MN: Creative Minnesota, Minnesota Citizens for the Arts and the Region 2 Arts Council released a new study today indicating that the arts and culture sector in North Central Minnesota is growing.

“The passage of the Legacy Amendment in Minnesota allowed the Region 2 Arts Council and Minnesota State Arts Board to increase support for the arts and culture in this area, and that has had a big impact,” said Sheila Smith, Executive Director of Minnesota Citizens for the Arts. “It’s wonderful to see how the access to the arts has grown in this area over time.”

The Legacy Amendment was passed by a statewide vote of the people of Minnesota in 2008 and created dedicated funding for the arts and culture in Minnesota. The legislature appropriates the dollars from the Legacy Arts and Culture Fund to the Minnesota State Arts Board, Regional Arts Councils, Minnesota Historical Society and other entities to provide access to the arts and culture for all Minnesotans.

“**Creative Minnesota’s** new 2019 report is about Minnesota’s arts and creative sector. It includes statewide, regional and local looks at nonprofit arts and culture organizations, their audiences, artists and creative workers. This year it also looks at the availability of arts education in Minnesota schools,” said Smith. “We also include the results of fifteen local studies that show substantial economic impact from the nonprofit arts and culture sector in every corner of the state, including **\$1.6 million in Hubbard County** in this region.”

NORTH CENTRAL MINNESOTA REPORT HIGHLIGHTS:

Although eleventh in population size among the state’s eleven regions, North Central Minnesota is 4th in economic impact per capita, outranking more highly populated areas. It also outperforms in several other metrics, ranking 8th in economic impact from nonprofit arts and culture organizations, 10th in overall attendance, and 9th in total youth attendance.

- **55%** of Minnesotans are personally involved in creative activity in their everyday life.
- **81%** of Americans believe that the arts are a “positive experience in a troubled world.”
- **90%** of Americans believe that cultural facilities (theaters, museums, sculpture parks, neighborhood arts centers) improve quality of life.

ACCESS TO ARTS EDUCATION IN MINNESOTA’S SCHOOLS

New data from Minnesota’s Department of Education have allowed us to take a look at students’ access to arts education in Minnesota’s K-12 schools. Minnesota statute sets requirements for arts education offerings, credits for graduation, and achievement of academic standards in the arts. Local control in Minnesota means that each school district decides how it will provide arts education to its students. Some schools are meeting or exceeding the requirements set in statute, and others are falling short.

This study covers one year of data from the **2016/2017 school year, in High School grades 9 through 12**, from **482 public and charter schools serving 252,181 students**. Information on more grades will become available over time.

High schools **must offer at least three** and require at least one of the following arts areas: **media arts, dance, music, theater and visual arts**. Students must take one credit of the arts to graduate.

Unfortunately, our first report on the availability of arts education in Minnesota schools is incomplete because **so many schools have not complied with the mandatory reporting requirements**. We cannot definitively say what percentage of students do not have access to the three arts courses that should be available to them in high school. It may be that their school has reported that they are not providing the courses, or it may be that the schools have not reported in at all.

- So far **165 schools, representing 24 percent of Minnesota's high school students, have not yet submitted their data**.
- Only **20% of high schools** have affirmatively reported that they are providing access to the required three arts disciplines. They serve just 37% of Minnesota’s 252,181 high school students.
- However, **76% of students** are in schools that report they provide at least some arts instruction.
- The most common disciplines offered are **Visual or Media Arts and Music**.

- **Traditional public schools are doing much better than Charter schools in providing access to arts courses.** Only **6% of Charter Schools** report they provide access to three arts disciplines required by Minnesota Statute, compared to **23% of Traditional Public Schools** which have reported the same. Stated in terms of the percentage of students in each type of school, **11% of students** at Charter Schools, compared to **38% of students** at Traditional Public Schools, have been reported to have access to the three arts disciplines.

While the results are summarized here, much more information will be available soon at **CreativeMN.org**, including details from each reporting school. Our new research is intended to be a tool for schools, principals, superintendents and most importantly parents and community members to learn whether or not their school is providing the state mandated access to arts courses and academic standards. They can then advocate for more arts education in their communities.

ABOUT CREATIVE MINNESOTA

Creative Minnesota was developed by a collaborative of arts and culture supporting organizations in partnership with Minnesota Citizens for the Arts (MCA).
